

Technical exercise instructions

Recreate the dashboard in the attached image (Main Dashboard Frontier_test.png) using Angular along with Bootstrap V5 and Font Awesome (for the link icon). **

Image assets have been attached for each task component.

** Email your solution to laura.tarbet@hymans.co.uk in a zipped container**

The solution should include at least the following components:

Page container (to display the banner and task components)

Banner

Task component

The page uses the following styles

Task Heading : Size 20px, Weight 500, Font: Roboto, Colour: #212121

Task Body: Size 14px, Weight 400, Font: Roboto, Colour: #696765

Link : Size 14px, Weight 700, Font: Roboto, Colour: #455560

Banner Gradient: linear-gradient(274.91deg, #70bc1f -26.96%, #00ace1 93.71%);

Box Shadow: 1px 1px 15px rgba(0, 0, 0, 0.1);

The page should be responsive and the task components should collapse to one column on mobile devices.

Optional Bonus Points for any of the following:

Add a Storybook file for the task component.

Create a service to mock and return the data to display in the task components.

Add a jest test file with suitable tests to the Task component.

Add a cypress E2E test for the page container.
